

S2 Fig. Forest plot showing the estimated prevalence (with 95% CI) of *Toxoplasma* in pigs for each study. In addition, results for each category (farming system) identified through univariable meta-regression are shown. T+=positive samples, N=number of samples, RE=Random Effects.

N=number of samples, C=Conventional farms, NS=studies not reporting farm features, O=Organic farms, SF=Small Farms, *studies applying serological screening before direction.
